One kidney. A whole lot of adventure. And we're not done yet!

In 2017, I donated a kidney to my dad, and I never imagined where that decision would take me. Since then, my passion for living donation has taken me to **Guatemala with Kidney Donor Athletes, to the summit of Kilimanjaro, and now to the Grand Canyon for Rim-to-Rim!**

This climb is especially meaningful as it falls in the same month as the one-year anniversary of losing my dad.

I'm so proud to support the mission of Kidney Donor Athletes and show just how BIG life with one kidney can be. Thank you for supporting me and this mission!

Next stop: Grand Canyon!
